

**TowerJazz** is committed to the Environmental, Health and Safety of our facilities. The safety and prevention of injury and ill health of our employees, the surrounding community and the environment has been a safe and productive operation and continues to be an essential element of our operations. We are all expected to conduct business in a safe and efficient manner and to adhere to all safety policies and procedures. We also strongly believe that good environmental management is an important part of our overall business strategy.

To this end, the company affirms its commitment to meeting the following objectives:

- ▶ Prevent accidents, injuries and ill health – Identify and correct unsafe acts and/or conditions
- ▶ Continuously improve the Health & Safety of the work environment
- ▶ Provide job training and effective feedback
- ▶ Emphasize individual responsibility for Health & Safety awareness by all employees and contractors
- ▶ Meet the applicable local, state and federal Occupational Safety and Health standards
- ▶ Commit to meeting and monitoring the environmental regulatory requirements that apply to our business
- ▶ Commit to define and accomplish environmental objectives and targets
- ▶ Commit to conserving natural resources and pollution prevention
- ▶ Commit to continuous improvement in all of our environmental aspects and taking appropriate actions when necessary
- ▶ Emphasize individual responsibility for environmental awareness by all employees and contractors
- ▶ Collaborate with relevant authorities, customers, suppliers and interested parties to ensure relevant environmental aspects are addressed
- ▶ Consider the impact of our actions on the environment during business planning, design, execution, manufacturing, new process introduction and facility upgrades
